

**IN THE CLAIMS**

Please amend the claims as follows:

1. (currently amended) A grille shelter comprising:

a housing adapted to enclose a cooking grill comprising a rear wall, a first side wall and a second side wall said first and second side walls each having a rear edge connected to an end of said rear wall and a forward edge, said rear wall and first and second side walls each having a bottom edge adapted to support said housing on a base surface;

a roof member pivotally connected to a top edge of said rear wall

at least one panel pivotally connected to at least one of said side walls;

[[and]]

wherein said at least one pivoting panel is moveable between a first position wherein it is open and a second position wherein it is closed; and

wherein said pivoting panels comprise a first section and a second section substantially perpendicular to said first section.

2. (original) The grille shelter of claim 1, wherein said roof member is moveable between a first position and a second position.

3. (original) The grille shelter of claim 1, further comprising a platform configured to attach to the housing whereby the grille shelter is secured from toppling in adverse weather or during use.

Response Under 37 C.F.R. §1.116  
Serial No. 10/707,406
